Wireless Configuration Guide:

Droid 10.1 TAB

The Johns Hopkins University has expanded its wireless service and now offers a new network “hopkins”. The “hopkins” wireless network uses strong 256 bit Advanced Encryption Standard (AES), and Microsoft Internet Authentication Service (IAS) for authentication to provide a higher level of security and access.

Access to the Johns Hopkins wireless network will require a one-time registration into the Johns Hopkins Address Registration System (JHARS). Registration on the Johns Hopkins Registration System can only be done using your account entry from the Johns Hopkins Enterprise Directory (JHED). Your account entry will require your JHED login ID (LID) and password.

How do I find out my JHED account information?

Step 1
You will need access to a wired (ethernet) connection: your system in your dorm room, the computer lab in Krieger Hall Room 160, or the library.

Step 2
Open a web browser and go to http://my.johnshopkins.edu

Step 3
Click the First Time JHED User link.

Step 4
Follow the instructions on the login page to find out your Login ID and to set your password.

JHARS Registration Required for First-Time Users:

Step 11: Open a new web browser window. If this is your FIRST time connecting this device to a wireless network at Johns Hopkins, you will be directed to our JHARS registration website. If you are not redirected, please type http://jhars.nts.jhu.edu. Click Log On to continue.

Step 12: Enter your JHED logon credentials and click Login to access the registration process.
Step 13: Click on **Dynamic IP** to register.
Step 14: Click **Confirm** to conclude and submit the request.

Step 15: Please Reboot to conclude the registration process.
