Wireless Configuration Guide:

**Droid**

The Johns Hopkins University has expanded its wireless service and now offers a new network “hopkins”. The “hopkins” wireless network uses strong 256 bit Advanced Encryption Standard (AES), and Microsoft Internet Authentication Service (IAS) for authentication to provide a higher level of security and access.

Access to the Johns Hopkins wireless network will require a one-time registration into the Johns Hopkins Address Registration System (JHARS). Registration on the Johns Hopkins Registration System can only be done using your account entry from the Johns Hopkins Enterprise Directory (JHED). Your account entry will require your JHED login ID (LID) and password.

**How do I find out my JHED account information?**

**Step 1**
*You will need access to a wired (ethernet) connection:* your system in your dorm room, the computer lab in Krieger Hall Room 160 or the library.

**Step 2**
Open a web browser and go to [http://my.johnshopkins.edu](http://my.johnshopkins.edu)

**Step 3**
Click the **First Time JHED User** link.

**Step 4**
Follow the instructions on the login page to find out your Login ID and to set your password.
How to configure Droid for “hopkins” wireless:

**Step 1:** To use the “hopkins” wireless network, you will need to set up Secure Credentials. First, click on Set Password:

**Step 2:** Create a new credential storage password and click OK.

**Step 3:** Click on Use secure credentials.
**Step 4:** From the menu, select the **Settings Icon**:

**Step 5:** Select **Wireless & networks**

**Step 6:** Select **Wi-Fi settings**

**Step 7:** Select **Add Wi-Fi network**
**Step 8:** Enter **hopkins** for the **SSID** and other information as follows:

**Security:** 802.1x Enterprise  
**EAP Method:** PEAP  
**Phase 2 authentication:** MSCHAPV2  
Scroll to bottom of screen and continue on next page:

**Step 9:** Enter JHED ID and password then hit **Connect**.
JHARS Registration Required for First-Time Users:

Step 10: Open a new web browser window. If this is your FIRST time connecting to a wireless network at Johns Hopkins, you will be directed to our JHARS registration website. If you are not redirected, please type http://jhars.nts.jhu.edu. Click Log On to continue.

Step 11: Enter your JHED logon credentials and click Login to access the registration process.
Step 12: Click on Register DYNAMIC IP.

Step 13: Select your Equipment Type and Operating System and click Next.
Step 14: Please **Reboot** to conclude the registration process.

Where do I get additional help?

Technical Assistance
Garland Hall Basement
Hours M-F 8AM-5PM

Krieger Computer Lab
Krieger Hall Room 160
Hours Sunday 10AM-Friday 10PM, Saturday 10AM-10PM
