Wireless Configuration Guide:

iPhone

The Johns Hopkins Institutions offer the hopkins wireless network to faculty, staff, students, or anyone with a valid JHED ID. The hopkins wireless network utilizes WiFi Protected Access (WPA2) with 256-bit Advanced Encryption Standard (AES), to provide a high level of security and access.

Access to the Johns Hopkins wireless network will require a one-time registration into the Johns Hopkins Address Registration System (JHARS). Registration on the Johns Hopkins Registration System can only be done using your account entry from the Johns Hopkins Enterprise Directory (JHED). Your account entry will require your JHED login ID (LID) and password.

How do I find out my JHED account information?

Step 1
You will need access to a wired (ethernet) connection: your system in your dorm room, the computer lab in Krieger Hall Room 160, or the library.

Step 2
Open a web browser and go to http://my.johnshopkins.edu

Step 3
Click the First Time JHED User link.

Step 4
Follow the instructions on the login page to find out your Login ID and to set your password.
Step 5: From the main screen, select the **Settings** Icon:

Step 6: Select **Wi-Fi**
Wireless @Johns Hopkins

**Step 7:** Select the *hopkins* network.

**Step 8:** Enter your **JHED_ID** and password.
Wireless @Johns Hopkins

**Step 9**: Accept the certificate.

![Certificate Image]

**Step 10**: When you see the check mark next to ‘hopkins’, you are on the network.
